Q1 - Clearly established in the 2nd Amendment, which is an individual right.									
Q2 - In all cases this fundamental right must be upheld and protected. Cities and counties are political subdivisions of the state and are therefore subject to the supremacy of the state over the local government organization.									
Q3 - Absolutley!									
Q4 - Unconditionally. They should not have to defend themselves in court, or be charged with a crime when the evidence shows clearly that self-defense was necessary.									
Q5 - Additionally, attempts to circumvent the citizens right to self-defense through gimmicks such as the City of Chicago is attempting presently should be preempted by state law. No markers on ammunition and no ammunition rationing or taxes.									
5	Konopnicki	Bill	R	Sen	●	●	●	●	●
6	Fitzgerald	David	R	Rep	●	●	●	●	●
Q2 - What part of "Shall Not Be Infringed" is complicated?									
Q3 - I think any law abiding citizen shall have the right to carry on their firearm for protection, we don't need a special pass from anyone to exercise our god given right.									
Q5 - Immediately! Our Founders knew the Second amendment would be the guardian of every other right. I would like to repeal any law that tracks how many or types of firearms a law abiding citizen has. I'm a Constitutional Conservative and I believe the Constitution and Bill of Rights is the highest law in the land. I'm not only saying that, I've published my Signed/Notarized Constitutional Affidavit on my web site. If I violate the AZ or US Constitution, this would give any citizen the power to remove me from office should I be found guilty of not Honoring my oath to Uphold and protect the Constitutions. I'm dead serious about helping to return this great country back to a Constitutional Republic!

Q1 - In my own family, everyone is getting a gun they can carry with them.									
Q2 - My husband has taken a pistol with us on all of our vacations, cross country, camping, under the seat, in the glove box and under our pillow in the tent. I feel better when it is there. We never had to use it!									
Q3 - In AZ we don't have to be trained anymore. I guess for this situation AzCDL would like them to be trained?									
Q4 - Absolutely!									
Q5 - The "reason" for carrying a weapon is for self-defense and defense of family and property. Even and Especially against an "abusive" government. I wish we weren't, but we are getting to that dangerous point in history (again).
