New Laws Effective July 29th

The 2010 Arizona legislative session saw the passage of a number of solid pro-rights bills. Arizona is now at the forefront of restoring freedoms that have been eroding away for decades nationwide. The following laws became effective on July 29, 2010.

Freedom to Carry Restored

Article 2, Section 26 of the Arizona Constitution says “The right of the individual citizen to bear arms in defense of himself or the state, shall not be impaired…” In 1990, an Arizona Appellate Court determined (Dano v. Collins) that Article 2, Section 26 did not include “concealed” weapons. The Arizona Supreme Court declined to hear the case.

In 1994, rather than reaffirm that discreet carry is covered under Article 2, Section 26, Arizona adopted a concealed carry (CCW) permit system requiring that citizens, who wished to fully exercise their right to bear arms, ask for permission in writing after taking two days of training from a government approved instructor, along with submitting their fingerprints and undergoing a background check. The permit was good for 4 years and could only be renewed after further training, fingerprinting and a background check. Additionally, the “right” to carry openly, or in a vehicle, was narrowly defined. That same year, the Appellate courts determined that a gun in a vehicle is a concealed weapon and that open carry must be obvious under “ordinary observation”. This was the status quo for over a decade until AzCDL was founded in June 2005.

From our beginning, AzCDL began work on restoring the right to bear arms in Arizona, starting with a series of CCW reforms. This year, Arizona Governor Jan Brewer signed an historic CCW reform bill, the AzCDL-requested “Constitutional Carry” bill, restoring the fundamental right of law-abiding adults to carry weapons, openly or discreetly, without first seeking written permission from the government. Only two other states respect your right to carry in a similar fashion, Alaska and Vermont.

In essence, the new law removes the prohibition and penalties, under ARS 13-3102, for adults (21 and over) who are discreetly carrying a firearm or other weapon without a CCW permit. The CCW permit is not eliminated. It becomes optional and still has a purpose. You’ll need one to streamline retail gun purchases, carry in states that recognize Arizona permits, and for carrying a firearm in establishments that serve alcohol. The training you receive to obtain a permit is an added bonus.

State Preemption Strengthened

The ability of political subdivisions (i.e., counties, cities, towns, etc.) to regulate firearms has been significantly curtailed. This year’s updated law adds firearms storage and accessories to the list of things that political subdivisions cannot regulate, and in general prohibits them from enacting any local ordinances more restrictive than state law. In particular, they can no longer limit the carrying of firearms in public parks to those with CCW permits.

Knife Preemption Added

Arizona is the first state in the nation to enact a knife preemption law. This new law, championed by the national Knife Rights organization, not only prevents political subdivisions from enacting new knife-related ordinances, but voids all existing ordinances more restrictive than state law. This is similar to the updated firearms preemption law.

CCW Permit Improvements

The Constitutional Carry legislation also made sweeping changes to the concealed weapons laws and process. For a start it is no longer a "crime" to not have your permit with you when required. It has been reduced to a "civil penalty."

The new law also expands the training opportunities that qualify for a CCW permit. The following is a partial list of training that may be substituted:

- Completion of a hunter safety course or any NRA firearms course.
- Current military service or proof of an honorable discharge.
- Completion of college level courses, or training from places like Front Sight or Gunsite.
- A permit from another state that has a training or testing requirement for issuance.

A complete list may be found in ARS 13-3112.N.

Firearms Registration Stopped

As a result of gun owner activism in Mohave County, a new law was passed that prohibits political subdivisions from requiring or maintaining any records related to the storage of firearms that contain descriptions (serial numbers, etc.) of firearms or their owners.

Stand Your Ground Strengthened

The legislation stopping firearms registration also contained a provision that clarifies that a person has no duty to retreat in any place they have a right to be.

Restaurant Carry Improvements

A liquor related bill was passed this year containing an AzCDL-requested provision that requires liquor licenses to be displayed "in a conspicuous public area of the licensed premises..." This becomes important in identifying establishments serving alcohol that prohibit firearms, since a "no firearms" sign is required to be posted near the liquor license.

Under prior law, the "no firearms" sign could be sitting next to the liquor license in an area not normally seen by the public and anyone entering with a firearm would be unaware that they are breaking the law.

Firearms Freedom Act

This new law exempts from federal law or regulation firearms manufactured and sold in Arizona, as long as they remain in Arizona. It is the latest in a multi-state challenge to federal authority to regulate firearms. The movement started in Montana and Arizona became the sixth state to pass a Firearms Freedom Act. About 20 other states have introduced similar legislation.

Don’t expect to find “Made in Arizona” firearms for sale in your local gun store any time soon. The Bureau of Alcohol Tobacco, Firearms and Explosives (BATFE) has already warned Montanans not to try to manufacture any “Made in Montana” firearms and a lawsuit has been filed in federal district court to test the new law.

Right to Hunt and Fish

A proposed constitutional amendment passed out of the legislature and was sent to the Secretary of State to be placed on the November ballot. If approved by the voters, it will add hunting, fishing and harvesting wildlife as rights guaranteed under the Arizona Constitution. It also declares that the state legislature has exclusive authority to regulate activities pertaining to the taking of wildlife.

Other Changes

Firearms seized by law enforcement can no longer be scrapped. They must now be sold to authorized dealers. (ARS 13-3105).

Law enforcement may no longer confiscate a firearm from someone with a suspended CCW permit if it is otherwise lawfully possessed. (ARS 13-3112.D).

The courts may no longer order the forfeiture of a firearm when a person is convicted of carrying in a "public establishment" where weapons are prohibited—The reference to ARS 13-3102.A.10 (public establishments) in ARS 13-3105.B (forfeiture) was deleted.

Train Me Arizona Campaign

Article 2, Section 26 of the Arizona Constitution says “The right of the individual citizen to bear arms in defense of himself or the state, shall not be impaired...” However, for the last 16 years the citizens of Arizona who wished to fully exercise their right to bear arms were required to seek written government permission, via a CCW permit. All that changed on July 29, 2010 when Constitutional Carry became the law in Arizona, restoring the right of law-abiding adults to bear arms openly or discreetly without needing a government permit.

However, exercising freedom comes with a cost – responsibility. Each of us is responsible to know the law, and to have the proper mindset, skills and ability that come with “bearing arms.” Proper and continuous training has always been our individual responsibility. The good news is that we no longer have to rely on government mandates to determine what training we need and should get.

To promote training in the skill at arms and the exercise of our fundamental right to keep and bear arms on a statewide scale, AzCDL is a partner in the new “Train Me Arizona” campaign.

We encourage you to become involved also. This is the armed citizenry envisioned by our nation’s Founders—aware of our freedoms and exercising them responsibly. Remember, the nation, and the world, are watching Arizona. We have made history together. How we, as gun owners and activists, respond to the restoration of our right to bear arms, sets the trend for other states to follow. Wear this responsibility with pride!

The Constitutional Carry language has been incorporated in to ARS 13-3102.

The revisions to Arizona’s (now optional) CCW permit requirements can be found in ARS 13-3112.

Please note the changes in ARS 13-3112.N regarding alternative methods of meeting the training requirements.

Firearms Training—A Matter of Education, Not Legislation

And, speaking of training...

As we have stated before, the heaviest thing about wearing a gun is the responsibility that comes with it. That includes the responsibility to know the law and to have the proper mindset and "skill at arms."

Along those lines, AzCDL Life Member Stephen Wenger has recently revised and updated his book Defensive Use of Firearms.

You can find out more about Stephen’s book at:

Stephen is a long time instructor located in Show Low and is one of AzCDL’s earliest supporters.

In addition to being an NRA certified instructor and DPS CCW instructor, he has been associated with Massad Ayoob’s “Lethal Force Institute” and was an instructor with the Defensive Combat Academy for a number of years.
